UNIQUE SCANDINAVIAN WET ROOM SOLUTIONS

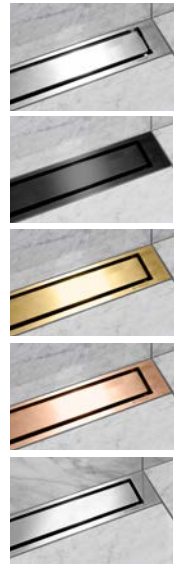

ORIGINAL ARCHITECT INVENTION
- THE FIRST LINE DRAIN IN THE WORLD

Danish architect Claus Dyre invented the line drain in 2003 and made Unidrain's unique floor drain system placed against the wall the first linear drain in the world. Since then, various design products have been added. Unidrain's products have received several international design awards.

HIGHLINE COLOUR

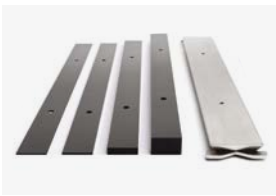

YOUR STYLE - FIVE COLOURS

HighLine panel is an exclusive solution. It comes in five colours: Brushed or hand polished stainless steel, black, brass and copper (PVD treated).

HighLine Colour floor drain | Panel black
Reframe Collection by Unidrain | Hooks black

HIGHLINE CUSTOM

An almost invisible drain where a trimmed floor tile of your own choice is placed on top to match the rest of your bathroom. HighLine Custom consists of a custom base, rail and heightener.

HighLine floor drain | line and square | Custom
Reframe Collection by Unidrain | Hooks and soap dispenser | Brushed steel

ClassicLine floor drain | Column
ClassicLine corner soap shelf | Column

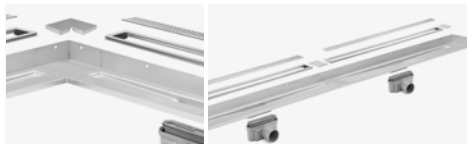

CLASSICLINE

THE ORIGINAL DESIGN RANGE

ClassicLine is the original design range from Unidrain, and consists of frame and six gratings: Column, Stripe, Square, Inca, Classic and Anniversario.

MODULAR LINE DRAIN SYSTEM

The modular line drain system is a solution where several drains are combined making it possible to produce floor drains in all lengths. The solution is ideal for institutions, changing rooms or large bathrooms. It can be designed as a HighLine or ClassicLine solution.

Modular line drain system | HighLine panel brushed steel
ClassicLine line soap shelves | Column

Modular line drain system | HighLine panel brass
Reframe Collection by Unidrain | Hooks brass

FlexLine floor drain | Custom
Reframe Collection by Unidrain soap shelf with shower wiper | brass

FLEXLINE

A CUSTOMISABLE DRAIN UNIT UP TO 2000 MM

FlexLine is a single, unbroken drain unit. With this option to hand, even quite bold ideas can be realised without worrying about whether it's possible with standard products, or whether the location of the outlet might cause problems in terms of the floor construction and site layout.

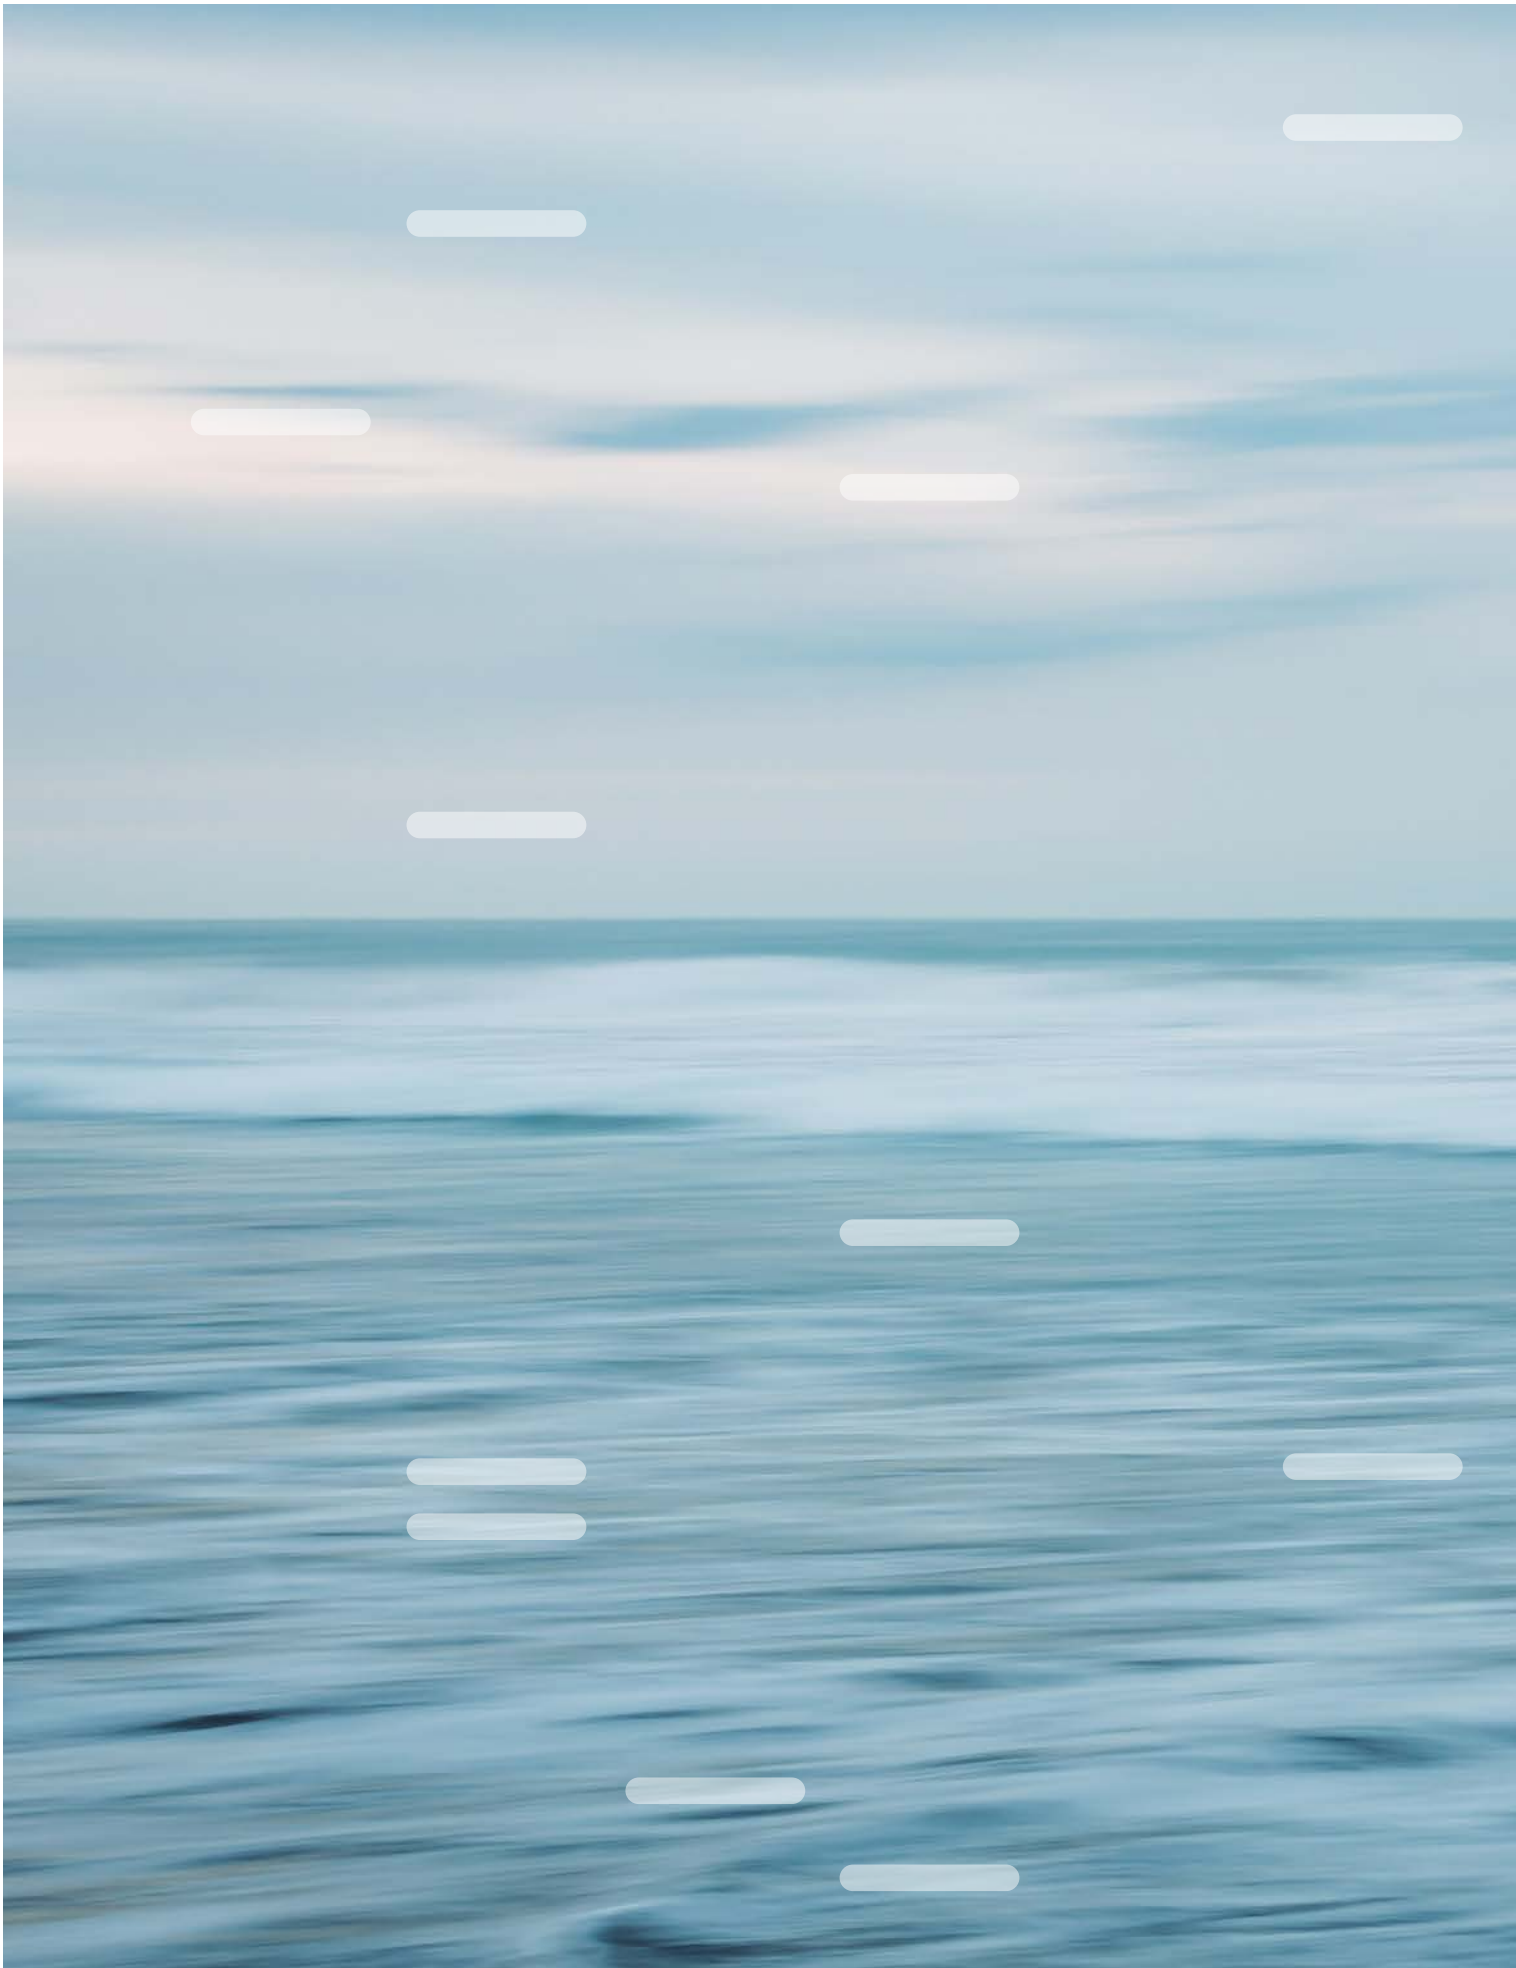

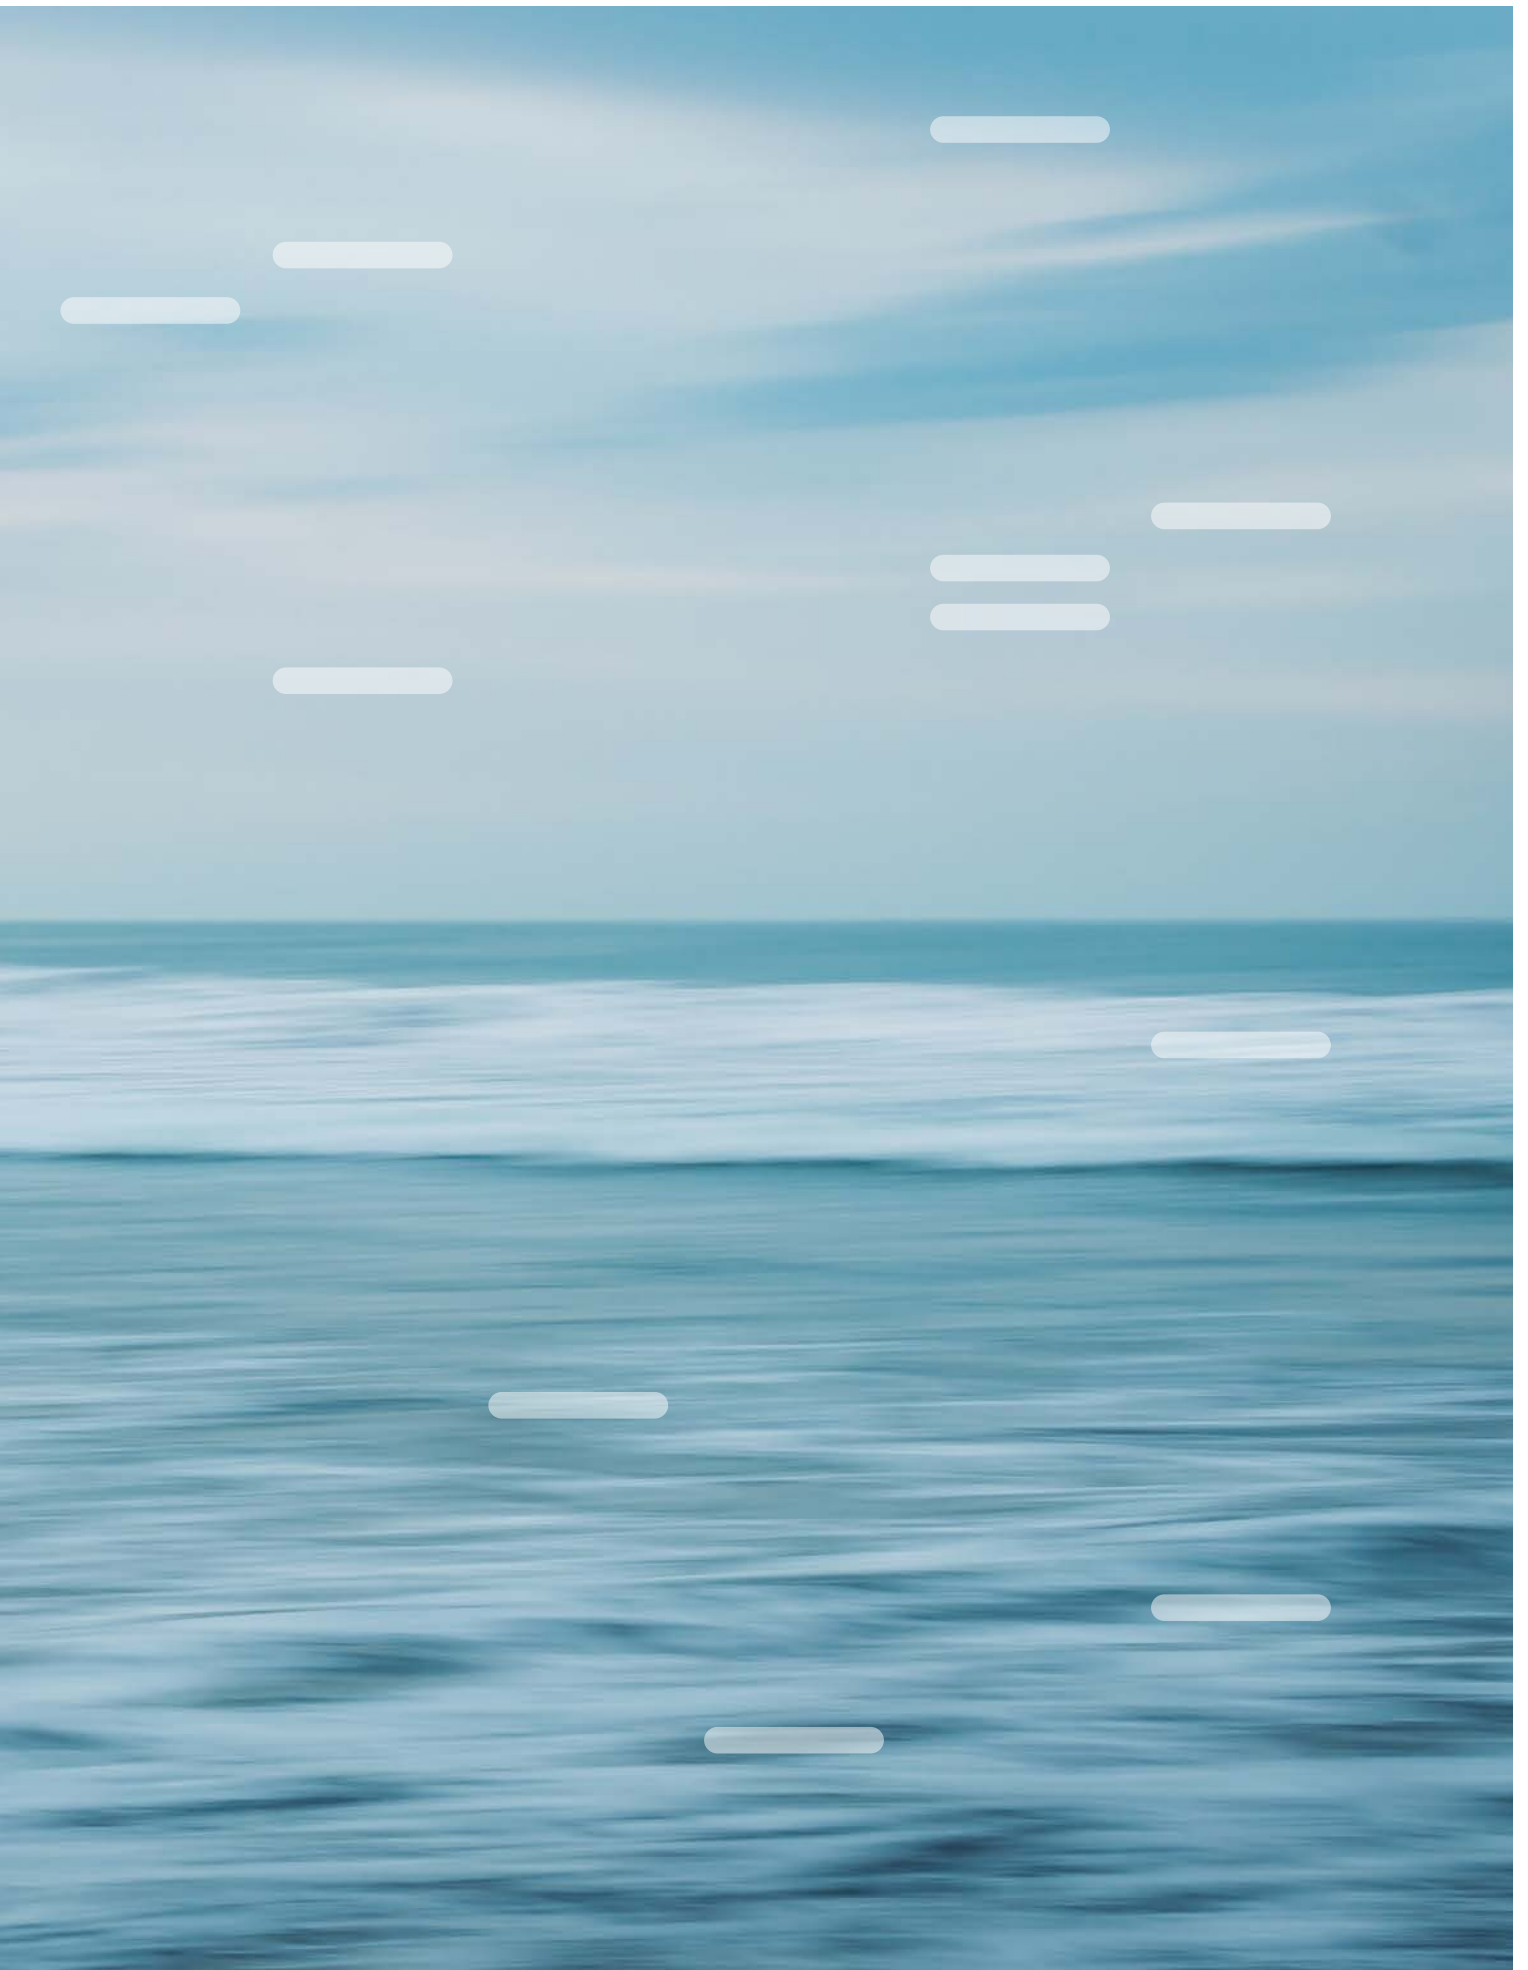

HighLine Free-standing floor drain | Column (above)
HighLine Free-standing floor drain | Cassette
ClassicLine Free-standing floor drain | Classic

FREE-STANDING DRAIN

You may not always want to place the floor drain against the wall, so Unidrain has developed a free-standing linear floor drain which can be placed anywhere in the floor. It can be designed as a HighLine or ClassicLine solution.

Integrated floor drain

GLASSLINE

STATE OF THE ART

Unidrain GlassLine is a glass wall solution with an integrated floor drain and built-in slope, securing an easy installation and water tight solution. Only a discreet steel frame is visible along the wall and floor, showcasing the elegant lines and providing a timeless look.

**EMPHASISE THE ELEGANT
AND TIMELESS DESIGN**

The handsome glass shower door is mounted with exclusive and stylish fittings, with no external handles.

The top bar stabilises the shower screen and is recommended for fitting GlassLine shower doors.

GlassLine shower screen | Black frame, HighLine Colour floor drain | Black Reframe Collection soap shelf and shower wiper, toilet brush, toilet paper holder, spare toilet paper holder, towel bar and hooks | Black

GlassLine shower screen | Steel frame, ClassicLine floor drain and ClassicLine corner soap shelf | Column
GlassLine shower screen | Black frame and HighLine floor drain | Black (right)
Reframe Collection soap shelf with shower wiper | Black

TREATED WITH
NANOTECHNOLOGY TO REDUCE
CLEANING TO A MINIMUM

Choose between a screen with
a black frame or a screen with
a discreet frame in brushed steel
along the wall and floor.

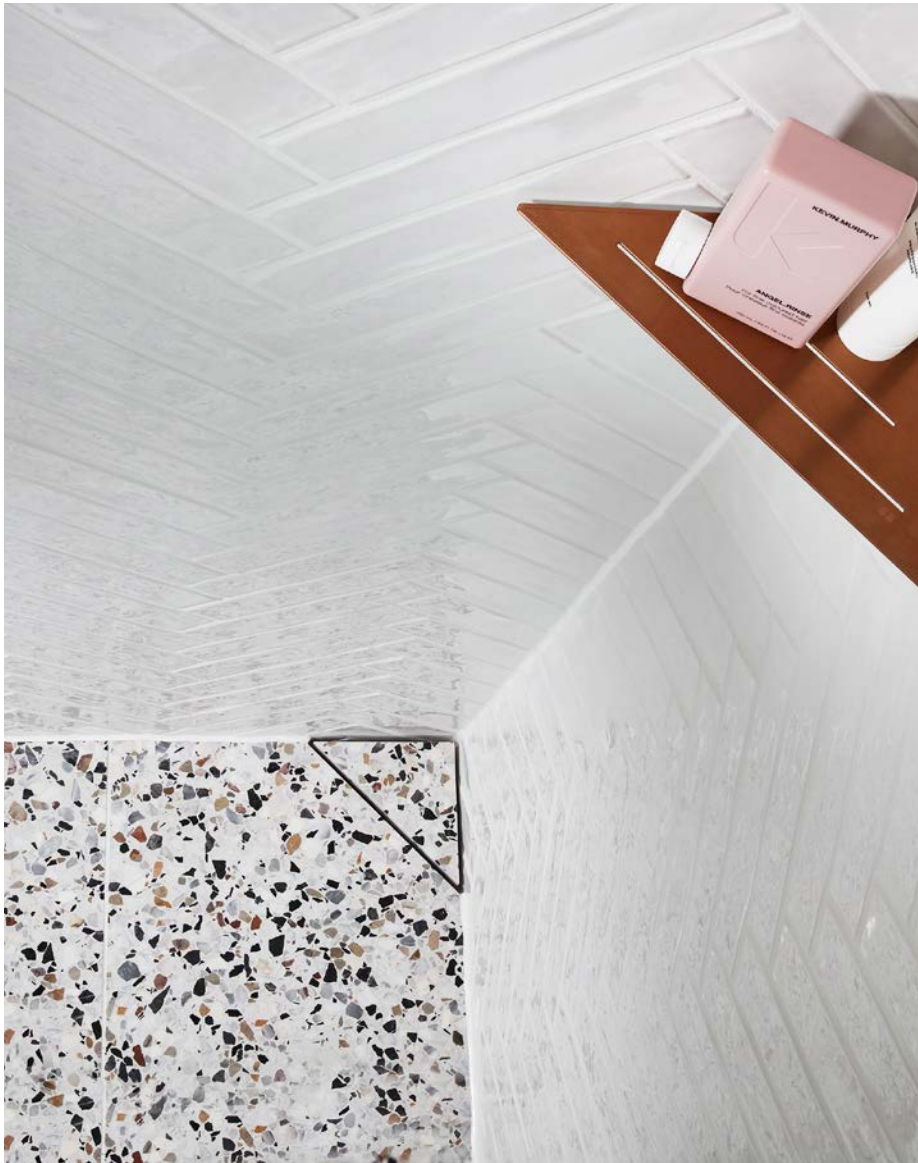

HighLine corner floor drain | Panel with frame
Reframe Collection corner soap shelf | Black
HighLine corner floor drain | Custom (right)
Reframe Collection corner soap shelf | Copper

A DISCREET SOLUTION

CORNER DRAIN

The Unidrain corner drain is significantly smaller than the equivalent floor drains on the market.

ClassicLine corner floor drain | Column
ClassicLine line soap shelf | Column

HighLine Square drain | Custom 10 x 10
Reframe Collection corner soap shelf | Black

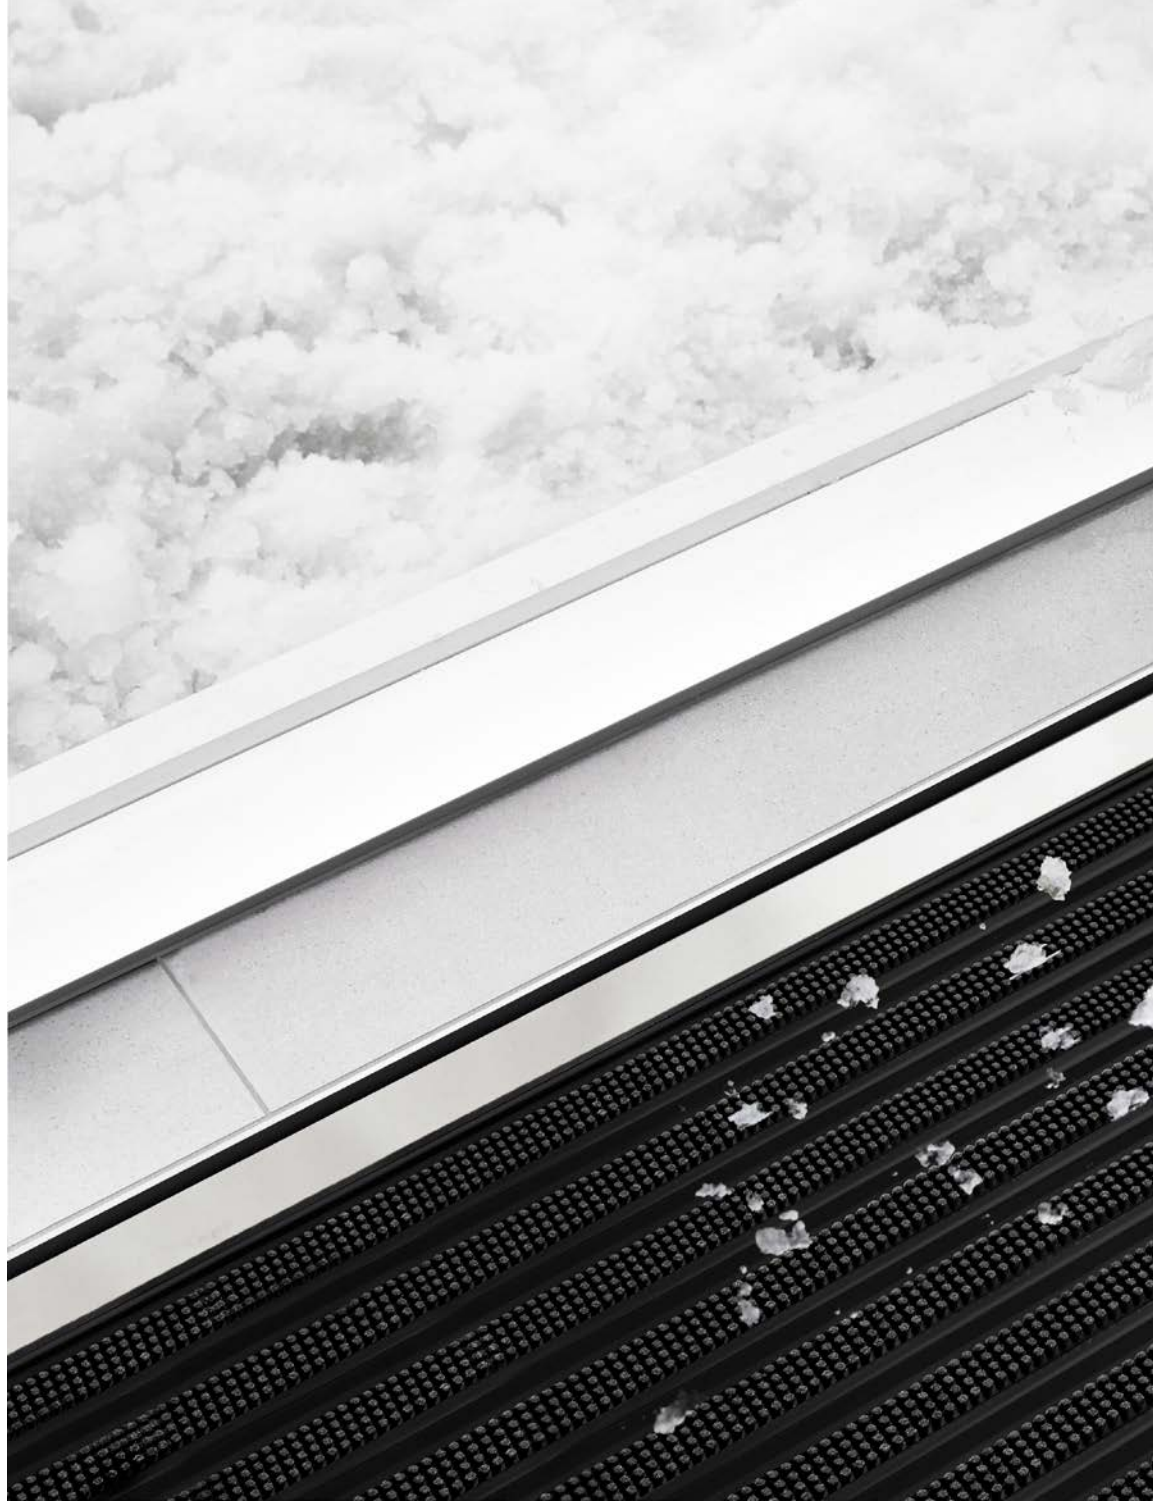

ClassicLine Square drain | Column 10 x 10
Reframe Collection corner soap shelf | Black

SQUARE DRAIN

10 X10 CM AND 15 X15 CM

Unidrain's square floor drain allows you to achieve a uniform Unidrain expression in any room where a drain is needed but a linear drain is not an option.

MATLINE

AN INTELLIGENT MAT SYSTEM

When the climate in periods is marked by slush, rain and mud it can be hard to keep the home clean, with children and adults leading active lives. Unidrain's MatLine is a functional and elegant solution to these day-to-day problems.

REFRAME YOUR BATHROOM EXPERIENCE

Reframe Collection by Unidrain is an exclusive and unique series of bathroom accessories designed to give your bathroom a truly Scandinavian look. The design is timeless and minimalistic.

collection by unidrain®

SOAP SHELF AND SHOWER WIPER

Besides creating a place for your shower essentials, the shelf also provides a fixed home for the shower wiper. Hidden magnets in the wall mount and shower wiper ensure a secure and discrete placement, keeping the wiper handy and easy to access at all times.

PEDAL BIN

The pedal bin combines sleek, timeless looks with robust usefulness. Engineered for sturdiness, the bin will stay in place while users enjoy the quiet elegance of the soft open/close function and a lid that won't collide with the wall. A specially developed tape on the inner bin keeps the bag firmly in place and invisible from the outside. With all mechanics hidden inside, the bin remains minimalist from every angle and easy to clean.

MATCHING COLOURS

The Reframe Collection is designed to match the award-winning Unidrain HighLine-series. Choose between five colour options: hand polished or brushed steel, copper, brass or black (PVD treated).

TOWEL BAR

Make your shower a little more Zen with the towel bar from the Reframe Collection by Unidrain. This elegant towel bar will keep your bathroom in harmony and the unique mounting design will make sure that even your most fluffy towels will stay in place, all the time.

TOILET BRUSH WALL-MOUNTED OR FLOOR STANDING

The inner plastic container of the toilet brush has a splash guard, which extends over the outer cover and ensures that no bacteria can get in between the two. The inner container is fitted with a 'tap' to make it easy to empty the container without coming into contact with bacteria.

TOILET PAPER HOLDER AND SPARE TOILET PAPER HOLDER

The toilet paper roll is held in place by a separate, removable, magnetic part, that has been optimized so the paper rolls flawlessly. The toilet paper holder is reversible and the separate, magnetic part can also easily be turned.

This innovative spare toilet paper holder makes sure, that your spare toilet paper is always nice and centered around the holder. The separate and flexible rubber part adapts to the inner diameter of the toilet paper roll and keeps the roll from slanting to the side.

SOAP DISPENSER

Keep your soap in style with this elegantly streamlined soap dispenser. The Reframe series is all about quality, style and clever functions: for example, the angle of the dispensing unit ensures that the soap ends up in your hand – not on the sink. And it works no matter where you push, making it a real pleasure to use. As practical as it is stylish, this soap dispenser is also very easy to refill and clean.

CORNER SOAP SHELF

Soap shelf in a reinforced steel plate to secure stability. Discreet grooves drain water away and an anti-slip barrier keeps shower essentials from sliding when the shelf is wet. The innovative wall mount can be adjusted to fit corners, which are not exactly 90°.

"MY APPROACH TO THIS DESIGN IS BASED ON A WISH TO IMPROVE AND REFRAME THE EXISTING"

Kenneth Waaben, Designer
